

Departmental  
Service Award

All department personnel  
including academic or  
classified staff

Nomination letter

I would like to nominate the CS540 peer mentor Kai Wang for the Departmental Service Award. Kai has always been of great help for explaining difficult concepts of CS540. I have always appreciated his patience and great explanations of the AI algorithms. Kai has gone above and beyond multiple times by writing up pseudocode and explaining it with me, while testing me during his explanations. He always seems excited to help others and for these reasons I believe Kai deserves to be recognized.
